Choose your driving mode (Economy, Dynamic, Sport)	X	X
Display OEM engine sensor data: MAP, MAF, TPS, or WBO		X
Custom E85 tunes (Created with eFlexTuner)	1	3

EFLEXFUEL E85 FLEX FUEL CONVERSION KITS

- Optimized fuel injection on any fuel blend (E0 – E98). No need to switch tunes/maps
- For every application the vehicle's OEM fuel system compatibility (injectors, pump, fuel lines) for E85 has been verified
- Piggyback system: Doesn't interfere with the OEM engine systems, works with modified engines and locked ECUs
- Plug & play: eFlexFuel kits include everything needed for DIY installation. No tuning required, no permanent changes made, no warranties voided
- Installation: DIY typically takes 1-3h with basic shop tools.
- eFlexFuel is plugged in to the fuel injector connectors, not OBD
- 5 year warranty with product registration
