

**All American Steel**

**Story of 154CM Blade**

With roots traced back to 1776, Crucible Industries has been the standard of American steel for almost 250 years. It is their furnace in upstate New York from which Crucible refined 440C stainless steel into the high end 154CM steel. By introducing 4% molybdenum to its already high carbon precursor, 154CM is imbued with even greater corrosion prevention and edge retention while achieving a 58.5 HRC hardness rating, perfect for EDC knives intended for regular and heavier cutting.

TYGER AUTO INC.  
U.S.A.

**Thumb Stud**

Pyramid shaped studs support ambidextrous and glove-on opening. (Spare provided)

**G-10 Material Handle**

Light weight, high strength, and robust against moisture, electricity and other chemicals

**Crucible Industries 154CM Stainless Steel Blade**

Made in America - 4% Molybdenum introduced to 440C Stainless Steel provides superior wear and corrosion protection. Easy to sharpen.

**Safety Liner Lock**

Sturdy liner lock for easy one hand closing.

**Glass Breaker**

Tungsten glass breaker for emergency situations.

**Thumb Hole**

Geometric shape hole for easy opening.

**Pocket clip**

Stylish clip design for pocket storage.

**Washer**

Ceramic ball bearing provides more exact and smoother glides without risk of rusting.

SKU# TG-KF9C2898

**SPECIFICATIONS**

Overall Length:	5.67" / 144mm
Blade Length:	2.17" / 55mm
Blade Thickness:	0.14" / 3.5mm
Blade Material:	Crucible 154CM
Blade Hardness:	HRC 60±2
Blade Grind:	Flat
Handle Length:	3.5" / 89mm
Handle Overall Thickness:	0.54" / 15mm
Handle Material:	G10
Thumb Stud:	G10
Liner Material:	Stainless Steel 3Cr13
Clip Material:	Stainless Steel 3Cr13
Back Spacer Material:	Stainless Steel 3Cr13
Screws Material:	Stainless Steel 303
Pivot Cap:	Stainless Steel 416
Washers Material:	Ceramic Ball Bearing
Weight:	87g / 3.1oz
Lock Type:	Liner Lock

V200910

**WARRANTY**

TYGER has a proud tradition of maintaining the highest of standards therefore we stand behind all our products. To find out more about our no-hassle warranty policy, please visit [www.tygerauto.com/contact](http://www.tygerauto.com/contact)

**WARNING**

Keep safe from children and follow your local authority guidelines on carrying knives in public.

**HOW TO CARE**

Since 154CM is a premium steel, we recommend only using diamond coated or ceramic stones for sharpening. Keep blade clean and lubricated periodically.
