

Thank you for your purchase of our new SS3 Ditch Light Kit. CAD-designed to use existing mounting points, this kit is compatible with the 2015+ Subaru WRX/STi. Basic installation instructions are included below. **Please contact us if you have any questions.**

1. Mark the location of the hood hinges with tape and tape the edges of the hood to prevent scratching.

2. Remove the two 12mm bolts securing the hood hinge, while holding the back of the hood.

3. Place the ditch light bracket under the hinge and align the holes with the hood hinge. Adjust the bracket to leave a slight gap at the back of the hood before tightening.

*See back for further instructions.*

4. Secure the bracket and hood hinge using the factory bolts, ensuring the hood hinge lines up with the tape.

5. Remove the tape and repeat the steps on the other side to complete the installation.

6. Once the bracket is mounted to the hood, refer to the SS3 Universal Bracket Info/Mounting Guide (PP0102), to mount your SS3 onto the bracket.

**NOTE:** Do not use automatic car washes with this kit installed.

Please contact **Diode Dynamics** should you have any questions about the installation or wiring process, at **314-205-3033** (9a-5p CST) or **contact@diodedynamics.com**.
